

BLATTWERK IV is a luxurious vintage leather with a striking appearance. It has a natural tumble pattern, and is casual, with a fascinating, varied look. The grain is lightly buffed and finished with a beeswax preparation, giving the leather its gorgeous vintage charm. Blattwerk IV is tanned through an environmentally friendly tanning process involving olive leaf extract, a method that was awarded the 2013 German Sustainability Prize and the "Blauer Engel" ecolabel.

Application: Furniture, Upholstery,
Leather goods

Thickness: 1.4 – 1.6 mm

Product type: Olive-leaf tanned aniline leather

Raw material: Premium Central European bull hide

Tanning: Vegetable tanned through an
environmentally friendly process with olive leaf extract

Care products: Aniline Protector,
Water Repellent Spray

Size: appr. 5 m² per whole hide

Minimum order quantity: 0,5 hide (appr. 2.5 m²)

Available colors: 6 colors

TECHNICAL CHARACTERISTICS

REMARKS/TEST METHOD/REQUIREMENTS	NOMINAL VALUE
Colour Fastness to Rubbing DIN EN ISO 11640 (grey scale level 1-5) 50 tours, dry 20 tours, wet 20 tours, perspiration pH 8	≥ 3 ≥ 3 ≥ 3
Colour Fastness to Light DIN EN ISO 105-B02 (WBS-level)	≥ 3
Tear Strength (N/mm) DIN EN ISO 3377-1	≥ 20N
Fire Protection Standard DIN EN 1021 part 1+2	Passed

Quality test certificate in accordance to DGM guidelines 2016
Tested after the standards of quality policy DIN 10204-2.2

We provide products of consistent quality, according to our general terms of sale and distribution.

CLEAN & CARE INSTRUCTIONS

Cleaning

Blattwerk IV is a high-quality vegetable tanned aniline leather. Aniline leather is soft, warm and open pored full grain leather. Due to open pores aniline leather is slightly sensitive. For everyday cleaning it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

Stains can be cleaned using a damp terry cloth. Make sure that the cloth is not too wet. Dry the darkened area with a hair dryer to avoid remaining water marks. Always practice a cleaning test in a hidden area. Be especially careful with lighter leather.

For difficult stains, we recommend to contact a specialist before taking any actions. Damage can easily occur due to improper cleaning attempts.

Maintenance and Treatments

For maintenance, we recommend **Aniline Protector**, it provides the necessary moisturizers to keep the leather soft and prevent it from fading.

If there's a risk for stains caused by liquids we recommend **Water Repellent Spray**.

Depending on the strain, heat and light exposure, the leather should be sparingly maintained every three to twelve months.
