

Bridge is a vacuum-dried, fine-grained, premium semi-aniline leather. Bridge has a beautiful, deep, silky glow with a slightly stiff feel, not unlike saddle leather. When Bridge is used in furniture the pieces easily "bridge the gap" between current trends and the classy past. A subtle two-tone finish further accentuates this leather's luxurious appearance. Bridge lends a tasteful touch to any room it's placed in, being well suited for both home and contract settings.

Application: Furniture with large cuttings, Leather and case goods

Thickness: 1.1 – 1.3 mm

Product type: Semi-aniline

Raw material: Central European young bull hide

Tanning: Environmentally friendly mineral tanning

Care products: Mild Leather Cleaner, Elephant Leather Preserver

Size: appr. 4.4 – 4.8 m² per whole hide

Minimum order quantity: 1 hide

Available colors: 17 colors

Custom colours: MOQ 250 m² per colour

We provide products of consistent quality, according to our general terms of sale and distribution.

CLEAN & CARE INSTRUCTIONS

Cleaning

(Product name) is a fine grain leather with a shiny saddle look. For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

Fresh stains should be removed immediately using a soft cloth or paper towel. Removing new stains immediately reduces the risk of permanent stains. Be careful not to rub too hard. Clean remaining dirt and stains with **Mild Leather Cleaner**.

Visible dirt and stains can be cleaned using **Mild Leather Cleaner**.

For difficult stains, we recommend to contact a specialist before taking any actions. Damage can easily occur due to improper cleaning attempts.

Maintenance and Treatments

For maintenance, we recommend **Elephant Leather Preserver**. It keeps the leather soft and supple and maintains the slight shine. First rub the leather fat in a terry cloth and then apply thin layers.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
