

Classic Nappa is a drum-dyed full grain leather made from Central European bull hides. An elegant finish makes this leather low-maintenance and stain resistant while leaving the natural grain profile intact. Slight structural differences are an intended effect of this leather's production method. Classic Nappa is a high-grade, durable and low-maintenance semi-aniline leather – an instant classic!

Application: Furniture, leather goods

Thickness: 1.0 – 1.2 mm

Product type: Semi-aniline

Raw material: Central European bull hide

Care products: Leather Sealant, Mild Leather Cleaner, Leather Protector

Tanning: Environmentally friendly mineral tanning

Size: appr. 5.0-5.5 m² per whole hide

Minimum order quantity: 0,5 hide (appr. 2.5 m²)

Available colors: 42 colors

TECHNICAL CHARACTERISTICS

REMARKS/TEST METHOD/REQUIREMENTS	NOMINAL VALUE
Colour Fastness to Rubbing DIN EN ISO 11640 (grey scale level 1-5) 500 tours, dry 250 tours, wet 50 tours, perspiration pH 8	 ≥ 4 ≥ 3-4 ≥ 3-4
Colour Fastness to Light DIN EN ISO 105-B02 (WBS-level)	≥ 4
Tear Strength (N/mm) DIN EN ISO 3377-1	≥ 20N
Finish Adhesion (N/cm) DIN EN ISO 11644	≥ 2N/10 mm
Flexing Endurance, dry DIN EN ISO 5402 (50.000 bucklings)	No cracks
Fire Protection Standard DIN EN 1021 part 1+2 IMO-Resolution MSC.307(88) DIN 75200 (mm/min)	Passed Passed < 100

Quality test certificate in accordance to DGM guidelines 2016

The user is obliged to ensure that our products are suitable for the process and use in question. In any case, our liability is limited to the value of goods delivered by us and used by you. We provide products of consistent quality, according to our general terms of sale and distribution.

CLEAN & CARE INSTRUCTIONS

Cleaning

Classic Nappa is a high quality semi-aniline leather. Due to the thin protective layer, this leather is pleasantly warm, but not too sensitive. For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

Fresh stains should be removed immediately using a soft cloth or paper towel. Removing new stains immediately reduces the risk of permanent stains. Be careful not to rub too hard. Clean remaining dirt and stains with **Mild Leather Cleaner**.

Visible dirt and stains can be cleaned using **Mild Leather Cleaner**. The **Leather brush** can additionally be used for dirty graining.

For difficult stains, we recommend to contact a specialist before taking any actions. Damage can easily occur due to improper cleaning attempts.

Maintenance and Treatments

For maintenance, we recommend **Leather Protector**. It's a protective cream with the necessary moisturizing oils and UV protection. It protects the leather from fading and keeps it soft. Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.

In high-traffic areas such as hotels, fast food restaurants, conference rooms, aircrafts or ships, the surface is more stressed and mechanical damages, color migration from jeans, and soiling on lighter leather occur more often. In such cases we recommend using **Leather Shield**, which provides a strong protection against wear, stains and color migration from jeans. **Leather Shield** should be applied after each cleaning or at least every two months to prolong the durability of the leather.

When both care products are used, the treatment with **Leather Shield** should always be applied before the treatment with **Leather Protector**. Let dry between the treatments.

Color damages caused by wear can be adjusted with **Leather Fresh**.
