

Creolo is an example of the kind of artisanry only practiced by a few tanneries worldwide. The leather receives a second vegetable tanning, resulting in a beautiful tumble pattern in the final milling process. Creolo hides are individually hand-brushed, making each one unique. It makes for breath-taking armchairs, stools, chairs and even entire suites. Creolo is stain-resistant and ages gracefully even in high-strain settings, such as bars or restaurants.

Application: Upholstery,
Leather goods

Thickness: 1.6 – 1.8 mm

Product type: Aniline leather

Raw material: Central European bull hide

Tanning: Combination of vegetable tanning and environmentally friendly mineral tanning

Care products: Mild Leather Cleaner,
Elephant Leather Preserver

Size: appr. 5 m² per whole hide

Minimum order quantity: 1 hide, appr. 5 m²

Available colors: 3 colors

TECHNICAL CHARACTERISTICS

REMARKS/TEST METHOD/REQUIREMENTS	NOMINAL VALUE
Colour Fastness to Rubbing DIN EN ISO 11640 (grey scale level 1-5)	
50 tours, dry	≥ 3
20 tours, wet	≥ 3
20 tours, perspiration pH 8	≥ 3
Colour Fastness to Light DIN EN ISO 105-B02 (WBS-level)	≥ 3
Tear Strength (N/mm) DIN EN ISO 3377-1	≥ 20N
Fire Protection Standard DIN EN 1021 part 1+2	Passed

Quality test certificate in accordance to DGM guidelines 2016

We provide products of consistent quality, according to our general terms of sale and distribution.

CLEAN & CARE INSTRUCTIONS

Cleaning

Creolo is a leather with a traditional antique finish. For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

Fresh stains should be removed immediately using a soft cloth or paper towel. Removing new stains immediately reduces the risk of permanent stains. Be careful not to rub too hard. Clean remaining dirt and stains with **Mild Leather Cleaner**.

For difficult stains, we recommend to contact a specialist before taking any actions. Damage can easily occur due to improper cleaning attempts.

Maintenance and Treatments

For maintenance, we recommend **Elephant Leather Preserver**. It keeps the leather soft and supple, and maintains the slight shine. First rub the leather fat in a terry cloth and then apply thin layers.

Depending on the strain, heat, and light intensity, the leather should be sparingly maintained every three to twelve months.
