

Pamplona is another highlight among our 3 mm thick heavyweight bull leathers. It has a striking tumble pattern and a hand-buffed tip effect. The process of making Pamplona is very demanding, requiring a great deal of skill and experience. Products made with Pamplona have a distinctive look and an incredibly soft touch thanks to its hand-buffed finish, while remaining very low-maintenance. Pamplona is a beautifully natural experience no leather enthusiast should miss!

**Application:** Furniture,  
Leather goods

**Thickness:** +3 mm

**Product type:** Pure aniline

**Raw material:** Premium Central European bull hide

**Tanning:** Environmentally friendly mineral tanning

**Care products:** Aniline Protector,  
Water Repellent Spray

**Size:** appr. 5 m<sup>2</sup> per whole hide

**Minimum order quantity:** 1 hide, appr. 5 m<sup>2</sup>

**Available colors:** 7 colors

**Custom colors:** MOQ 300 m<sup>2</sup> per color

## TECHNICAL CHARACTERISTICS

REMARKS/TEST METHOD/REQUIREMENTS	NOMINAL VALUE
<b>Colour Fastness to Rubbing</b> DIN EN ISO 11640 (grey scale level 1-5)	
50 tours, dry	≥ 3
20 tours, wet	≥ 3
20 tours, perspiration pH 8	≥ 3
<b>Colour Fastness to Light</b> DIN EN ISO 105-B02 (WBS-level)	≥ 3
<b>Tear Strength (N/mm)</b> DIN EN ISO 3377-1	≥ 20N
<b>Fire Protection Standard</b> DIN EN 1021 part 1+2 BS 5852 part 1+2	Passed Passed

Quality test certificate in accordance to DGM guidelines 2016

Please note that this certificate does not relieve the customer of their obligation to inspect the goods. The technical information provided, either orally or in writing, is based on our current knowledge and is provided in good faith but without guarantees, this also applies where third party ownership is involved. The user is obliged to ensure that our products are suitable for the process and use in question. In any case, our liability is limited to the value of goods delivered by us and used by you. We provide products of consistent quality, according to our general terms of sale and distribution.

## CLEAN & CARE INSTRUCTIONS

### Cleaning

Pamplona is an open pore smooth leather with a slight grain sanding. The thickness of the leather and the striking grain with the sanded top of the grain, give the leather its special character. For everyday cleaning, it is sufficient to occasionally dust off the leather with a feather duster or a dry dust cloth.

In the case of fresh stains, first absorb with a dry terry cloth or paper towel by gently pressing with your fingers. Do not rub, this can change the surface irreversibly. Remaining spots can be cleaned with a damp terry cloth, make sure it's not too wet and do not rub too hard. Dry the darkened, wet area with a hair dryer with cold air to avoid water marks. Then sand remaining darkened areas with the **Sanding Pad**. This method can also be used when greasy areas, due to skin or hair contact, are darkened. Always practice a cleaning test in a hidden area first.

For difficult stains, we recommend to contact a specialist before taking any actions. Damage can easily occur due to improper cleaning attempts.

### Maintenance and Treatments

For maintenance, we recommend **Aniline Protector**. This treatment provides the necessary moisturizers to keep the leather soft and prevents fading.

In case of risk of stains caused by liquids, we recommend **Water Repellent Spray**.

Depending on the strain, heat, and light exposure, the leather should be sparingly maintained every three to twelve months.
